

PSYCHOMOTRICITY: NEXT MOVE IN NEUROPSYCHIATRY

WEDNESDAY, JUNE 22ND, 2022

09.00 — 09.30 WELCOME COFFEE

SESSION 1 / PHILOSOPHY OF SCIENCE

09.30 — 10.30 Cédric BRUN —
(Institute of neurodegenerative diseases, UMR 5392 CNRS,
University of Bordeaux, France)
"From the philosophy of scientific models to the philosophy *in* scientific models"

10.30 — 11.00 COFFEE BREAK

11.00 — 12.00 Jack FOUCHER —
(Icube, University of Strasbourg, France)
"Crucial experimental series"

12.00 — 13.30 LUNCH BREAK

SESSION 2 / SYMPOSIUM

13.30 — 14.30 Dusan HIRJAK —
(Central Institute for Mental Health, Mannheim, Germany)
"Multimodal brain imaging of catatonia and other psychomotor
abnormalities in psychiatric disorders."

14.30 — 15.30 Walther SEBASTIAN —
(University Hospital of Psychiatry and Psychotherapy,
University of Bern, Switzerland)
"When motor behavior disturbs social interaction:
The impact of psychomotor abnormalities on nonverbal communication"

15.30 — 16.00 COFFEE BREAK

16.00 — 17.00 ROUND TABLE

THURSDAY, JUNE 23RD, 2022

08.45 — 09.00 WELCOME COFFEE

SESSION 1 / CLINICAL PRESENTATIONS

09.00 — 10.00 Clinical presentations (in English)

10.00 — 11.00 Clinical presentations (in English)

11.00 — 11.30 COFFEE BREAK

11.30 — 12.30 Clinical presentations (in English)

12.30 — 13.30 LUNCH BREAK

SESSION 2 / SYMPOSIUM

13.30 — 14.30 Stephan HECKERS —
(University Medical Center, Nashville, Tennessee, USA)
"Psychomotor behavior in the nosology of psychotic disorders"

14.30 — 15.30 The CEMNIS —
(Strasbourg's non invasive Neuromodulation Center Research Team)
"Progress in the biomarkers in diagnosis and treatment of catatonia"

15.30 — 16.00 COFFEE BREAK

16.00 — 17.00 ROUND TABLE

FRIDAY, JUNE 24TH, 2022

08.45 — 09.00 WELCOME COFFEE

SESSION 1 / PRÉSENTATIONS CLINIQUES

09.00 — 10.00 Présentations cliniques (in French)

10.00 — 11.00 Présentations cliniques (in French)

11.00 — 11.30 COFFEE BREAK

11.30 — 12.30 Présentations cliniques (in French)

NEUREX
MEETING/WORKSHOP

JUNE
22nd/ 23rd/ 24th 2022
STRASBOURG

Almost 150 years after its invention by Karl Kahlbaum, catatonia has re-emerged as an independent entity with the official endorsement of the ICD-11 this year. However, it probably neither refers to the same patients, nor to the same phenomena. "Catatonia" and "psychomotricity" are polysemous; they refer to different concepts depending on the paradigmatic framework, e.g. neuropsychiatry, psychological psychiatry, dimensional research domain criteria... This workshop aims at clarifying some of the major research programs and paradigmatic frameworks in which these phenomena are studied. It will mix philosophy of science, methods, and results, but also clinical symptoms, signs, and examination procedures. Experts and participants will give their opinion on the same video to objectify some differences in interpretation and definition – participants are welcome to bring questions and clinical material to be discussed. The goal is not to decide who is right or wrong, but to build bridges between different views which might ultimately permit to confront them through crucial experimental series. This dialectic approach promotes cross-fertilization and ambition to speed-up the discovery process.

VENUE
AMPHITHEATER FRANK OF
THE STRASBOURG FACULTY OF DENTAL SURGERY
8, RUE SAINTE ÉLISABETH / 67000 - STRASBOURG

ORGANIZERS
CLÉMENT DE BILLY & JACK FOUCHER

(Icube, Institut de Physique Biologique & Hôpitaux Universitaires de Strasbourg)

Organized under the hospice of the European collaboration on movement and sensorimotor & psychomotor functioning in schizophrenia and other psychoses (ECSP), of the Wernicke-Kleist-Leonhard international society and Neurex.
